EDUCATION

- **L J Institute of Engineering and Technology** — Ahmedabad ,India
  Bachelor of Technology - Information and Communication Technology; CGPA: 8.59 — *July 2019 - Present*
  Courses: *Data Structures, Analysis Of Algorithms, Artificial Intelligence, Machine Learning, Networking, Databases, MI and MP Interfacing , Database Architecture*

SKILLS SUMMARY

- **Languages**:   Python, C, C++, JavaScript, HTML, CSS, Java
- **Frameworks**:   NodeJS, ReactJs, Django, ExpressJs
- **Libraries**:   Keras, MatPlotLib, Numpy, Pandas, Tensorflow
- **Tools**:   GitHub , Visual Studio Code, CodePen
- **Soft Skills**:   Leadership, Project Management, Creativity, Problem Solving

EXPERIENCE

- **Concordia University** — Montreal, Canada
  Research Assistant — *May 2022 - Aug 2022*
  - ○ **Developing Alogrithm**: Optimized and updated the ULP Algorithm using Tensorflow and Deep Learning
  - ○ **User Interface Development**: Developed an UI in Django to implement the Log File Parsing
  - ○ **Alogirth Testing**: Testing of different Log files to improve the accuracy and efficiency of the Algorithm
- **Saint Louis University** — Remote
  Data Analyst — *Dec 2021 - Jan 2022*
  - ○ **Pre-processing of raw data**: Performed cleaning and remediation on provided data set
  - ○ **Data Visualization**: Graphically represented data using Seaborn Library and it's tools
  - ○ **Presenting and Result Analysis**: Concluded the findings and made a report after deeply analysing the data
- **JPMorgan Chase and Co.** — Virtual
  Software Engineering Virtual Experience — *March 2021*
  - ○ **Learning**: Interface with a stock price data feed
  - ○ **Optimize the Code**: Use JPMorgan Chase frameworks and tools
  - ○ **Visualization**: Display data visually for traders using real-time dynamic graphs

PROJECTS

- ○ **Weather App**: A weather app build using NodeJs and using two open source API's Tech: JavaScript, NodeJS, ExpressJS, NPM , Heroku (October 2021)
- ○ **Task Manager (API)**: A task managing API which can perform CRUD applications and saves data in MongoDB. Tech: Javascript, NodeJS , NPM, Heroku ExpressJs. (November 2021)
- ○ **Blog App**: A real-life locally hosted social media platform build on Django. Tech: Python ,Django, HTML, CSS (September 2021)
- ○ **Cat or Dog Prediction Model**: A Cat or Dog recognition model which uses TensorFlow for analysis . Tech: Python, TensorFlow, Keras, JupyterNotebook (November 2021)
- ○ **Car Price Prediciton Model**: Model which takes Car information and based on the training dataset provides a resale value. Tech: Python, NumPy, Flask, SciKit, JupyterNotebook (November 2021)

CERTIFCATIONS

- Mitacs Globalink Intern - Mitacs
- IBM Data Science - IBM
- Neural Networks and Deep Learning - DeepLearning.ai
- Introduction to Big Data - UC San Diego
- Machine Learning for All - University of London
- Specialization in Python - University of Michigan
- NodeJS Developer - Udemy
